

# ODFL Optical Distribution Frame Light

FOCUS-ODFL are light ETSI metal frames designed to reach the maximum modularity and flexibility to allow easy on-site assembly. They are available in two heights; 2 mt and 2.20 mt. FOCUS - ODFL range include modules and kits, which allow composing ad hoc structure upon your own design needs. Thank to that features, this product is suitable for different

type of applications. Inside, FOCUS-ODFL frames it's possible to install different type of subracks. All fiber optic cables can enter into subracks trays' from left, right or backside; adequate bend control on all fibers optic routing is always guaranteed. Furthermore, into side module extension of the rack it's possible to store and organize patchcords and pigtails.

## APPLICATION

- Exchange, primary distribution points, customer's premises
- Central Offices, telecommunication equipment rooms
- Weather-protected locations, such as building basements

## TECHNICAL FEATURES

- Bend radius protection throughout the frame
- Fully front accessibility
- Maximum flexibility and modularity
- ETSI Compliant
